

Educational Health Seminar

Brain Health and Anti-Aging

featuring

Rosalyn Baker, LMSW

*Psychotherapist and Neurotherapist
Grand Rapids, MI*

As a diabetic, Rosalyn's own quest for good health, her work with mental wellness, and more recently her experiences in retraining the brain with computer software have led her into the field of nutrition. She is an experienced public speaker, and recently addressed neurofeedback colleagues on the subject of brain health and nutrition at the international Clinical Interchange Conference in Washington, DC. She has been a co-host on a GVSU call-in radio show discussing mental health topics, and wrote a Wellness column for Metropolitan Parent magazine.

Thursday, November 6, 2008

Hors D'oeuvres at 6:30 pm
